产品描述

产品描述

9" TFT/LCD Monitor with 2 Video and 2 Audio outputs, sunshade and built-in speaker. Unique circuitry allows this monitor to operate on a multi-voltage system (9-32 volts) while still maintaining a 12 volt output. This means that any of cameras can be used without the need for a voltage dropper, making it ideal for any number of applications. It will operate on NTSC and PAL and support 16:9 widescreen formats.
