## 产品描述

产品描述

This system is ideal for vehicles where a large bracket camera is unsuited. It gives excellent performance with the monitor as the Sony sensor works well with the digital LCD panel in the monitor. With the camera available in white or black it will fit a wide range of vehicle. It can be used as an always on camera or to come on automatically with the reversing light. There is the provision for up to 2 cameras and a choice of stand for the monitor.
